## SUMMARY

After more than 10 years in administration, I made a meaningful career change to follow my passion for web development. I proactively learned frontend skills through online courses and hands-on projects, driven by my love for technology and design. This shift let me combine my strong organizational skills with a detail-focused and creative mindset. Now, I focus on building intuitive, attractive, and user-friendly interfaces using React, constantly improving through self-learning and real projects.

## EDUCATION

### Self-Study in Frontend Development

#### Online Courses

## EXPERIENCE

### Personal Assistant to the Chairman & Administrative Manager

#### Manpower Israel Ltd.

2010 - 2021 Tel Aviv-Yafo, Israel

Manpower Israel Ltd. is a prominent provider of comprehensive human resources services in Israel, specializing in staffing solutions, career resources, and educational opportunities.

- Managed schedules, communications, and logistics for senior executives in a fast-paced corporate environment.
- Took initiative in solving technical issues and worked daily with systems like **AS400**, invoicing platforms, and CRM tools.
- Demonstrated a strong ability to **quickly learn new software and tools**, often becoming the first point of contact for system-related questions and process optimizations.
- Coordinated with international teams and vendors, handling tasks such as **digital communication**, **travel logistics**, and **document automation**.
- Developed excellent organizational skills, attention to detail, and the ability to handle multiple tasks under pressure.
- My hands-on experience with technology and passion for digital solutions led me to **transition into web development**, where I'm now focused on building clean, responsive user interfaces.
